HEALTHY PHYSICALS

Routine Physicals for Healthy Individuals

For individuals without a primary care physician, or for anyone wishing for quick and comfortable access to confidential screening & diagnostic physical exams.

Physicians conduct the one to three hour physical examinations Monday through Friday by appointment. The Center forwards all test results within one week and provides notification of any serious diagnoses within 24 hours.

Services May Include:

- + Complete medical history review

- + Wellsource® life survey
- + Comprehensive physical examination
 - Complete Blood Count & Lab Work
 - Complete Lipid Profile (*Cholesterol Test*)
 - Electrocardiogram (*EKG*)
 - Urinalysis
 - Vision Exam with Glaucoma Screening
 - Audiometric Evaluation
 - Pulmonary Function Testing
 - Digital Chest X-ray
- + Cancer Screening

Screening for women may include a mammogram, pap test, and pelvic exam, and for men Prostate Specific Antigen if indicated.
- + Letter with physician recommendations

The International Travel Clinic

Whether traveling abroad as an exciting escape or business necessity, make Mercy International Travel Clinic the first stop on your itinerary.

Before your trip, medical staff provides personal, comprehensive consultations to help avoid diseases endemic to certain parts of the world.

Pre-travel consultations include:

- Review of travel itinerary health conditions at your destination

IMMUNIZATION & TRAVEL ADVISORY SERVICE

INTERNATIONAL TRAVEL CLINIC

- Review of current health status & advice for staying well during your travels
- Prescribe medications if necessary
- Administer required vaccinations
- Supply and validate International Certificates of Vaccination (*Certified Yellow Fever Center*)

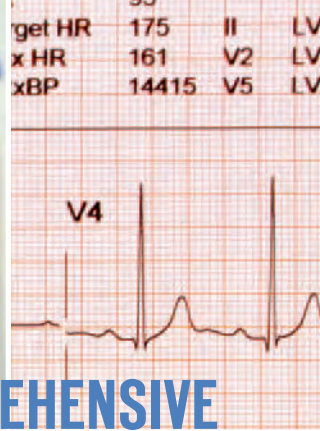

The International Travel Clinic is open to the public and does not require physician referral.

Appointments should be made at least four weeks in advance of your travel date so necessary immunizations can be completed before your journey.

For an appointment, call 305-285-2666.

CONVENIENT

ONE STOP SERVICE. STAFF PHYSICIANS PROVIDE INSTANT PRESCRIPTIONS FOR APPROPRIATE SCREENING SERVICES.

COMPREHENSIVE
